Dear Property Owner,

You have received this notice because you own property within the Drainage District of the Road Commission Drain. The Road Commission Drain is an open channel system which serves properties within Nelson and Solon Townships by collecting the storm water runoff from properties and roads within the drainage district.

The Drain Commission recently completed drainage work repairs in 2017, 2018, 2021 and most recently 2023-2024. The 2023-2024 maintenance was sediment and debris removal from US-131 to Cedar Springs Ave along the east ditch. A map of the location of work is attached to this notice.

The cost of the maintenance for the 2023-2024 maintenance will be placed on the Drainage District for a 2-year annual assessment. There are no changes to your apportionment percentage cost. Costs for maintenance are not provided by other means such as regular property taxes; we must assess the costs for maintenance to the property owners and governmental units within the District. The Special Assessment will be placed on your Winter Tax Bill starting in 2024 and will be spread for 2-years.

Dated: April 2, 2024

Kenneth J. Yonker
Kent County Drain Commissioner
