

3/2/2023

Disability Advocates had 2 new Veteran referrals for January. Our Occupational Therapists completed 2 home assessments, both Veterans had cognitive issues and the families had safety concerns. We are working on getting bids from contractors for bathroom modifications for a Veteran we saw last month and getting bids for tile and shower repair for a Veteran we saw in February. We provided adaptive devices in the home to one of the Veterans.

So far in 2023 we have not provided any modifications: we did provide adaptive equipment to one Veteran.

We have also tracked 4 information and referral calls from Veterans in Kent County during February of 2023.

We continue to partner with other community agencies in our efforts. Senior Neighbors, Home Repair Services, Building Bridges, and several contractors have assisted in making these homes safe and accessible for our Veterans. Disability Advocates also uses vendors such as Carelinc and Advantage Ramps. We are currently getting a bid from Lakeshore Barrier Free, and are looking for bids for flooring, possibly Re-floor.

Please contact me if you need further data. We will be sending links to success stories as we get them. Thank you so much for providing Disability Advocates with the opportunity to serve our Veterans.

Judy Morris, OTR/L CAPS
