

## OFFICIAL MEDIA RELEASE

### KENT COUNTY SHERIFF DEPARTMENT

Date: 07/30/2015

Complaint Number: 15- 138376

Type of Incident: Accident

Reporting Officer: Sgt Johnson

Supervisor Approval:

At 16:32 hours the Kent County Sheriff Department, with LIFE EMS and the Plainfield Fire Department responded to a report of an accident at West River Dr. and Lamoreaux Dr NE. A power pole was sheared in half causing power lines to fall across the roadway. Lamoreaux Dr NE remains closed between West River Dr NE and McCrellis Ave NE.

At this time, Consumers Energy is on scene and states the repair will be lengthy in duration. They will be shutting down power to the substation that powers that area, which will cause traffic lights in the area to lose power including the light at West River Dr and 4 Mile Rd NE. Please use caution in the area while crews work to replace the power pole and restore power to the area.

Remember that power lights that are not working are to be treated as a 4-way stop.

This accident remains under investigation.
