## Benefits of using a dental provider in your Primary Network or the NovaNet network:

1. **Cost Savings:** Network providers have negotiated rates which can result in lower out-of-pocket costs for you.
2. **Quality Assurance:** Providers in the network are typically vetted for their credentials and quality of care, ensuring you receive reliable and professional dental services.
3. **Convenience:** With a wide range of dentists in the network, you can find one close to your home or workplace, making it easier to schedule and attend appointments.
4. **Comprehensive Care:** Network providers usually offer a full range of dental services, from routine cleanings to specialized treatments, ensuring all your dental needs are met in one place.
5. **Streamlined Claims Process:** Using a network provider can simplify the claims reimbursement process.
6. **Remember:** While you receive the same benefits with any provider, choosing a network or wrap provider can help your benefit dollars go further.
