

2/6/2023

Disability Advocates had 4 new Veteran referrals for January. Our Occupational Therapists completed 2 home assessments, both Veterans had cognitive issues and the families had safety concerns. We are working on possible bathroom modifications for one, and we gave information for safety devices in the home to the other. One Veteran was a follow up from a previous referral, and there was a new referral to be assessed in February.

So far in 2023 we have not provided any modifications or adaptive equipment.

We have also tracked 8 information and referral calls from Veterans in Kent County during January of 2023.

We continue to partner with other community agencies in our efforts. Senior Neighbors, Home Repair Services, Building Bridges, and several contractors have assisted in making these homes safe and accessible for our Veterans. Disability Advocates also uses vendors such as Carelinc and Advantage Ramps.

Please contact me if you need further data. We will be sending links to success stories as we get them. Thank you so much for providing Disability Advocates with the opportunity to serve our Veterans.

Judy Morris, OTR/L CAPS
