Prioritize Top Issues

59 stakeholders and residents reviewed the data and completed a two-part prioritization process.

Ranked issues based on:

- Magnitude/Severity
- Root Cause
- Ability to Impact

Compared and scored the importance of each issue relative to the other nine to produce a final prioritized list.

Results

Prioritized list of top health-related needs that were identified by the community

Bars show the percentage of people who had each topic among their top 3 priorities
