Emergency Exercise Underway

GRAND RAPIDS – Kent County/Grand Rapids Emergency Management officials, Grand Rapids Fire Department/RRT 61, Kent County Road Commission, the 51st Civil Support Division of the Michigan National Guard and the National Weather Service are currently working on a real-time hazardous materials exercise on Grand Rapids northeast side. One of the goals is to make the exercise as real as possible, thus very little advance notice was provided to responders. The exercise is located near Monroe and Dale NE in Grand Rapids. The exercise includes a fair amount of equipment and vehicles, but should pose little to no traffic issues for motorists in the area. The exercise should be complete later today. If you have any questions, please contact 51st Civil Support Team Master Sgt. William Bennett at 269.420.3851.
